TOURNAMENTS, STREAMING & MORE...

USPA NEWS - Sony PS4 - "The Best Place To Play"
Sony Corporation is a Japanese multi-national conglomerate corporation.

Sony PS4 has "incredible games and endless entertainment". It also has TV, music, live events, streaming and tournaments, etc.

It is the one and quality of live. The games are exclusive.

PS4 has critically acclaimed Indys/Indies, along with award winning AAA hits and "the biggest names of the gaming world" but is not immune to cyber attacks. Continually, leadership, government protection and perhaps Homeland Security in the USA can become more effective in practices relating to cyber security.

The PS4 is Region Free for games. From Japan to North America, Europe, South America and South Africa. However, you should be aware that the downloadable content (DLC) is locked by region on consoles for DVDs and Blu-ray movies.

Gamers who buy and play locally, in each country, will not have any problem with DLC. Formerly, the controversy regarding DLC was not only complex but the various companies and Developers were accused of greed and bad practices. (More than one incident of morality versus legalities.) Remember personal computers use customization. PS4 is Plug & Play. Gamers win!
